Pentagon High Conviction Bond Fund: Class B USD
A Sub-fund of Merrion Capital Investment Funds PLC

ISIN: IE00BF1F4Y06

Management Company: Managed by Merrion Capital Investment Managers Limited. ICM Investment Management Limited acts as sub-investment manager.

Objectives and Investment Policy

The Fund is actively managed to deliver attractive long-term investment returns (3-5 years) to investors through a combination of income and capital appreciation while limiting the amount of principal risk.

The Fund will invest in a concentrated portfolio of predominantly global corporate bonds that have been identified by the sub-investment manager as being undervalued and therefore offering the potential for price appreciation while also providing on-going income.

The Fund will invest in Investment Grade and High Yield bonds across both Developed and Emerging Markets. High Yield and Emerging Markets bonds are generally riskier than Investment Grade bonds, but may offer higher return potential. While some risk is necessary to produce attractive longer-term investment returns, the investment manager will make reasonable efforts to control, manage and mitigate this risk. The sub-investment manager may use financial derivatives

instruments in the form of forward contracts, options, warrants and credit default swaps primarily for efficient portfolio management and hedging purposes.

This fund may not be appropriate for investors who plan to withdraw their money within 2-3 years.

Class B shares do not pay a dividend. Any income arising from investments is retained in the Fund and reflected in the value of the share class.

Shares can be bought and sold back to the Fund on a daily basis on the relevant dealing day in Ireland.
