

A Global Fund Manager and Corporate Advisor Focused on Long-Term, Sustainable Growth

#### **OUR HISTORY**

ICM Limited ("ICM") is an entrepreneurial asset management group that applies deep sector expertise and independent thinking to investment opportunities beyond traditional strategies.

Founded in 1988, we have grown into a global organisation that blends the established values of a family office, the disciplined evaluation of a private equity house, and the patient perspective of a committed long-term investor. Increasingly, we are recognised for identifying right-sized opportunities in specialist sectors where our high engagement approach can have a meaningful impact.

While entrepreneurial in spirit, we hold firmly to traditional principles: delivering on our commitments, challenging constructively, and building enduring relationships based on trust and respect. These values underpin our culture and the work of our global team of specialist investors and sector analysts — each empowered to pursue compelling ideas with rigour and independence.

At ICM, we balance autonomy with shared insight, fostering a collaborative environment that strengthens conviction and drives informed, resilient investment outcomes.

As an active investor and asset manager with business interests that span the world, ICM understands the importance of giving back by investing in the community. Based on over two decades of private stakeholder philanthropic experience, ICM has identified sustainable, effective and focused education where the biggest impact can be made on individuals and in communities.

ICM created ICM Foundation to focus on supporting game changing innovative entities, which are scalable and have the potential to become self-sustaining. ICM Foundation invests in predominantly education focused enterprises taking a fresh approach to moving the needle in this sector, adapting expertise gleaned from our experience in the education sector along from lessons learnt in the business world to create improved access and opportunities for community organisations and social enterprises that we support. We are passionate about helping our grantees thrive by providing financial as well as non-financial support through the deep, meaningful and long term relationships we have established.

Over the last decade, ICM and their stakeholders have granted US\$18.7 million to community and nongovernment organisations (NGO's), and ICM Foundation remains committed in its goal of being a mechanism for improving community wellbeing and assisting self-sufficient sustainability. The NGO's and partners we support through our eco-system deliver projects that assist individuals and communities to care for themselves through entrepreneurial enterprises, including micro financing and micro franchising. In all instances the initiatives we support work closely with the individual in each system or community.

ICM Foundation supports selective education projects and models undertaken by Teach a Man to Fish as a corporate sponsor of the Schools Enterprise Challenge, which is a global initiative seeking to inspire, support and develop the entrepreneurial self-sufficient school model. This encourages schools to develop profitable enterprises by implementing their own business plans and illustrate entrepreneurial opportunities to the students.
