ICM Investment Management is the regulated sub-investment manager for the Pentagon High Conviction Bond Fund, and ICM acts as investment adviser to the sub-investment manager. The Pentagon High Conviction Bond Fund is a sub-fund of Merrion Capital Investment Funds Plc.

The Pentagon High Conviction Bond Fund is an unlisted, open-ended investment fund (UCITS) that invests in a more concentrated portfolio of high alpha, global corporate debt opportunities in order to deliver attractive, long-term, risk-adjusted returns to investors. This objective is achieved through an investment approach that focuses on identifying compelling value opportunities through bottom-up company research.

MOBILITY SECTOR

ICM Limited has been investing in mobility solutions for public and private transport for over 20 years

ICM Mobility Group (ICM Mobility) is a focused global investment group bringing together ICM Limited's mobility businesses.

ICM Mobility supports c.US\$150m in mobility businesses - from planning journeys and issuing smart tickets, to streamlining electronic payments and providing insights, ICM Mobility invests in and partners with companies shaping the digital transformation of the mobility sector.

ICM Mobility enables public and private transport to move into the digital era, and these companies have solutions deployed in over 100 cities making more efficient journeys and payments for everyone.

ICM Mobility's initial investments are in five businesses engaging 800 highly talented people, operating in 20 countries around the world. The investee companies retain their existing brands, continue to service customers in their specific markets, and are empowered to share industry experience, customer knowledge and market understanding to drive innovation and new services.

Kuba's dynamic approach provides transport operators with a lean, flexible and easily deployable ticketing service that can be tweaked to any transport system.

Littlepay has created a simple, flexible, highly secure, API-based transit payment platform that empowers passengers to pay with any contactless EMV card, phone or smart device.

Snapper is a dynamic team of experienced transport technology developers, who understand the end-to-end requirements of operating a smart ticketing system.

UNWIRE

Unwire's mobility platform aggregates transit services and enables users to seamlessly plan, book, and pay for their multimodal journeys. Their app aggregates a wide range of mobility services from traditional mass transit to micromobility, paratransit, rideshare and other multimodal options.

Vix Technology delivers an innovative, multi-modal, multi-operator automated fare collection platform that unifies account-based, closed loop and open payments into a single solution that is easy to deploy, operate and manage.

ICM FOUNDATION

As an active investor and asset manager with business interests that span the world, ICM understands the importance of giving back by investing in the community. Based on over two decades of private stakeholder philanthropic experience, ICM has identified sustainable, effective and focused education where the biggest impact can be made on individuals and in communities.

ICM created ICM Foundation to focus on supporting game changing innovative entities, which are scalable and have the potential to become self-sustaining. ICM Foundation invests in predominantly education focused enterprises taking a fresh approach to moving the needle in this sector, adapting expertise gleaned from our experience in the education sector along from lessons learnt in the business world to create improved access and opportunities for community organisations and social enterprises that we support. We are passionate about helping our grantees thrive by providing financial as well as non-financial support through the deep, meaningful and long-term relationships we have established.

Over the last decade, ICM and their stakeholders have granted over US\$14 million to not-for-profit and community organisations, and ICM Foundation remains committed in its goal of being a mechanism for improving community wellbeing and assisting self-sufficient sustainability. The NGO's and movements we support deliver projects that assist individuals and communities to care for themselves through entrepreneurial enterprises, including micro financing and micro franchising.

ICM Foundation supports selective education projects and models undertaken by Teach a Man to Fish as a corporate sponsor of the Schools Enterprise Challenge, which is an exciting global initiative seeking to inspire, support and develop the entrepreneurial self-sufficient school model. This encourages schools to develop profitable enterprises by implementing their own well developed business plans and illustrate entrepreneurial opportunities to the students.

In addition, ICM Foundation supports Food Ladder, The Greenlight Movement (via various Poverty Stoplight organisations), and the Harlequins Foundation. Food Ladder provides people the tools to stop hunger and malnourishment, and it will continue its rollout and expansion in Indigenous populated Australia, throughout India, and priority countries in the developing world. The Greenlight Movement uses scalable tools for social change to help people progress out of poverty by empowering them to understand and map their own choices; and, the Harlequins Foundation provides solutions to address inequality, poor health and challenges that face the most vulnerable in society using education, skills development and entrepreneurship.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE

At ICM, environmental, social and governance issues are a priority, and we ensure we operate in an ethical way while focusing on delivering long-term, sustainable growth.
