Pentagon High Conviction Bond Fund: Class E Sterling
A Sub-fund of Merrion Capital Investment Funds PLC

ISIN: IE00BHR48L00

Management Company: Managed by Merrion Capital Investment Managers Limited. ICM Investment Management Limited acts as sub-investment manager.

Objectives and Investment Policy

The Fund is actively managed to deliver attractive long-term investment returns (3-5 years) to investors through a combination of income and capital appreciation while limiting the amount of principal risk.

The Fund will invest in a concentrated portfolio of predominantly global corporate bonds that have been identified by the sub-investment manager as being undervalued and therefore offering the potential for price appreciation while also providing on-going income. The fund will invest in Investment Grade and High Yield bonds across both Developed and Emerging Markets. High Yield and Emerging Markets bonds are generally riskier than Investment Grade bonds, but may offer higher return potential. While some risk is necessary to produce attractive longer-term investment returns, the investment manager will make reasonable efforts to control, manage

and mitigate this risk. The sub-investment manager may use financial derivatives instruments in the form of forward contracts, options and warrants primarily for efficient portfolio management and hedging purposes.

This fund may not be appropriate for investors who plan to withdraw their money within 2-3 years.

Class E Shares do not pay a dividend. Any income arising from investments is retained in the Fund and reflected in the value of the share class.

Shares can be bought and sold back to the Fund on a weekly basis on the relevant dealing day in Ireland.

Please refer to the Prospectus and Fund Supplement for more detailed information.

Risk and Reward Profile

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may shift over time.
- The lowest category does not mean 'risk free'.

The Fund is rated 4 due to the nature of the underlying investments which may include the risks outlined below:

Credit Risk – A borrower or counterparty may fail to repay or otherwise withstand contractual obligations to the Fund.

Interest Rate Risk – Adverse movements in interest rates could cause the value of the fund to fall.

Market Risk – the value of investments may fall as well as rise and investors may not recoup the original amount invested.

Currency Risk - Returns from overseas securities can also be subject to fluctuations in exchange rates.

Derivatives Risk - Derivatives can be used to help reduce risk but may not be fully successful. Derivatives can also reduce gains you may otherwise have made. Certain derivatives may result in gains or losses that are greater than the amount originally invested.

Emerging Markets Risk – Emerging markets may have additional risks associated with changes in economic and market conditions as a result of political and economic developments.
